

Paving Solutions

**4****MILLION
DOWELS**

Produced Annually

The total solution

CMC manufactures concrete paving accessories for highway, airport and commercial concrete paving projects in U.S. markets.

As a major manufacturer of dowels, dowel baskets and accessories, we can provide a full solution for all your paving needs. CMC is also one of the largest national steel and rebar manufacturers and fabricators in the U.S. With over 60 locations in the United States, we are able to supply straight length and fabricated rebar from our network of mills and fabrication shops from coast to coast.

Our mission is to provide you with superior paving products at competitive prices and to fulfill all your paving construction requirements while exceeding your service expectations.

Services

CMC has a national sales network backed by a regional manufacturing structure that ensures you can count on our national support in bidding and delivering on schedule. Most of our estimating is performed in-house and our sales agents manage deliveries of their projects for customized personal service.

Our services include:

- Professional take-off and estimating
- Professional detailing
- Project management

Our professional sales and technical staff has decades of experience in concrete paving and is committed to understanding your paving needs and developing a custom solution for your projects.

Markets we serve

CMC provides paving product solutions for the following paving construction markets across the U.S.:

- Airport paving
- Heavy highway paving for state DOT's and local city municipalities as well as private public partnership projects
- Paving for commercial construction projects

**MADE IN
AMERICA**

With over a century of steelmaking experience, CMC is committed to innovation and industry leading customer service.
